"Yes, I prefer

SHELL X-100 Motor Oil–

it's proved itself in my car"

EVERY time your car starts, every time it stops, corrosive acids form inside the engine. They are active *even when the car is not in use.* By eating into vital engine parts and slowly destroying finely machined surfaces, these acids do more damage than friction can ever do. Corrosive acid attack leads to blocked oilways, loss of power, unnecessary and harmful dirt, excessive wear, and many other troubles. You cannot prevent acid formation. You *can* protect your engine from its effects by using Shell X-100 motor oil, always.

This oil has been developed by Shell scientists to neutralise engine acids and so provide positive resistance to corrosive acid attack, 24 hours out of 24. Cars that run on Shell X-100 motor oil benefit from:

- Cleaner engine
- Reduced engine wear
- Smooth full power performance
- 24-hour protection from corrosion
- Longer engine life

... ay, too. Always ... lubricant, best

SHELL X-100 MOTOR OIL
