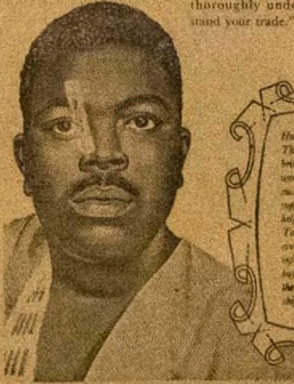
Story of a Successful Trader

Mr. Peter Ezeli

and The United Africa Company work together for prosperity

SINCE leaving school, Mr. Peter Ezeli has built up a flourishing cycle business, with stores in Warri and Ojatsia. At first he managed the bicycle section of his father's store: then he began trading on his own account, selling spare parts and, later, all makes of cycles. But the real turning point in his life came when he agreed to take part of a U.A.C. trader's allocation of Raleigh bicycles.

In 1953 Mr. Ezeli began to deal directly with The United Africa Company, and a year later he became a credit customer. Other assistance and good advice from the Managers enabled him to prosper, and today he has a large monthly turnover. He employs a salesman and three cycle-assemblers in his new stores at Warri who work with equipment supplied by the Company. His wealth proves the wisdom of his motto, "Work hard, specialise, and thoroughly understand your trade."



Hundreds of African traders rely on The United Africa Company to bring them goods from all over the world—and many of them started successful businesses with stock supplied on credit by the Company, helped by advice from its Managers. To The United Africa Company every trader is an important source of information on the needs of African buyers, so that both the trader and the Company profit by their friendship in business together.
